

GPU Day 2022

Tuesday, 21 June 2022

Session V (09:00 - 10:40)

time	[id] title	presenter
09:00	[66] Piquasso, a comprehensive framework for optical quantum computer programming and simulation	ZIMBORAS, Zoltan
09:30	[36] Improving efficiency of non-Gaussian photonic circuit simulations	KOLAROVSKI, Zoltán
09:50	[42] Custom Tailored FPGA Boson Sampling	MORSE, Gregory
10:10	[31] Efficient quantum gate decomposition via adaptive circuit compression	RAKYTA, Peter
