

HCBM 2010 - Hot and Cold Baryonic Matter 2010

Wednesday, 18 August 2010

Non-extensive Phenomena (14:00 - 18:00)

time	[id] title	presenter
14:00	[31] Nonextensive critical effects in relativistic nuclear mean field models	Prof. WILK, Grzegorz
14:45	[32] The Bjorken scaling and nucleon mass modifications in dense Nuclear Matter.	Dr ROZYNEK, Jacek
15:20	[33] Hadron production in a parton cascade modell with non-additive energy composition	URMOSSY, Karoly
15:55	[34] Tsallis Distribution in High-energy Heavy Ion Collisions	Dr BARNAFÖLDI, Gergely Gábor
16:30	Coffee Break	
17:00	[35] Nonadditive Entropy and Nonextensive Statistical Mechanics - Concepts and Applications	Prof. TSALLIS, Constantino
